**Report No. SAT-00124**

**Friday October 4, 2002**

## POLICY BRANCH INFORMATION

### Satellite Space Applications Accepted for Filing

The applications listed below have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of the applications if, upon further examination, it is determined the application is not in conformance with the Commission's rules or its policies. Petitions, oppositions and other pleadings filed in response to this notice should conform to Section 25.154 of the Commission's rules, unless otherwise noted. 47 C.F.R. § 25.154.

---

**SAT-MOD-20020919-00178** P S2404 INTELSAT LLC  
Modification

Intelsat LLC has filed an application for modification of its authorization to operate the INTELSAT 805 satellite. Intelsat is seeking authority to operate the INTELSAT 805 satellite in the 12.7-12.75 GHz frequency band for the provision of fixed-satellite service on a non-harmful interference basis between non-U.S. points.

---

**SAT-MOD-20020923-00177** P S2388 INTELSAT LLC  
Modification

Intelsat LLC has filed an application for modification of its INTELSAT 702 satellite. Intelsat is seeking authority to relocate INTELSAT 702 from 176.0° E.L. to 85.15° E.L. Intelsat plans to start drifting INTELSAT 702 toward 85.15° E.L. in November/December 2002 and have the satellite on-station at that location in December 2002/January 2003.

---

**SAT-PDR-20020930-00179** P New Skies Satellites NV  
Petition for Declaratory Ruling

New Skies Satellite, N.V. has filed a request to revise the Permitted Space Station List to reflect the relocation of the NSS-7 satellite. The NSS-7 satellite is operating at 21.5 degrees W.L. and will be relocated to 22 degrees W.L. Therefore, New Skies asks that NSS-7's entry on the permitted list be revised to reflect the new location. NSS-7 will continue to provide Fixed-Satellite Service, exclude FSS Direct-to-Home services to, from and within the United States in the 3700-4200/5925-6425 MHz and the 11.7-12.2/14.0-14.5 GHz frequency bands from 22 degrees W.L. In addition, New Skies requests that earth stations be authorized to provide FSS services by accessing the NSS-7 satellite during its period of migration from 21.5 degrees W.L. to 22 degrees W.L.

NOTE: COMMENTS may be filed on or before October 21, 2002. REPLIES may be filed on or before October 28, 2002.
